ALVA H. SMITH

R. F. D. No. 1

PAINESVILLE, OHIO

A Message

to Our Customers and Friends

CONDITIONS in all nurseries of the country are greatly improved. Prices of labor and material have risen to such an extent that it is necessary for us to increase our prices to you, but you may be assured that our usual high quality has been maintained. We value your patronage, and hope to continue to receive your orders. Our success depends on pleasing you. All orders are filled with this in mind.

Last summer we suffered one of the worst growing seasons of our career. But being fortunate in having a late fall and plenty of rain, most of our plants are up to the grade we are pleased to send out.

The majority of our customers order from us year after year. This gives us proof that our plants and service have been up to their specifications.

A state Certificate of Inspection accompanies each shipment, assuring its freedom from insect pests and disease. We further guarantee that stock supplied shall be true to name, up to grade and quality ordered.

We advise all perennial plants to be shipped express, if possible. The Express Companies have made a 25% reduction on their rates for these plants.

Terms of sale: Prices are per dozen or hundreds, but will furnish 6 at 12 rate and 25 at 100 rate. If cash accompanies order, boxing and packing free.

Unknown correspondents must accompany their orders with cash, or satisfactory reference.

We will in no way be responsible for productiveness of stock after it has been satisfactorily received by you, nor will we at any time be liable for more than the original purchase price of plants received.

	Per 12	Per 100
ACHILLEA—Boule de Neige (Ball of Snow). An improved variety of the Pearl. Valuable for border and cutting. 1½ feet -----	.75	5.00
ACONITUM (Monkshood). The flowers are very showy, shaped like a helmet or hood from which the common name is derived. The leaves are of a lustrous green. All stock good and healthy and first class tubers. As this plant starts very early, we advise fall planting.		
Fischeri . Azure blue. October. 3 feet-----	1.25	7.00
Spark's Variety . Darkest blue of all varieties. July and August. 2½ and 3 feet-----	2.00	10.00
Wilsoni . True variety, mauve colored flowers. Hollyhock type 6 to 9 feet. October-----	3.00	15.00
AJUGA—Reptans (Bugle Flower). For growing under trees, creeping habit, used in rock gardens, flower purplish-blue in May-----	1.25	7.00
ALYSSUM—Saxatile Campactum (Basket of Gold). Used for borders, grayish-green leaves with brilliant golden flowers early in summer-----	1.00	6.00
ANCHUSA—Italica Dropmore (Alkanet). Tall growing plant of dark blue flowers in profusion, 4 to 5 feet in height. Blooms in mid-summer-----	1.00	6.00
Myosotidiflora . This is a Russian species. Grows to the height of 1 foot, with small blue Forget-me-not flowers; finds a place readily in any rockery-----	1.50	8.00
ANEMONE Pulsatilla (Pasque Flower). One of the early blooming plants in the rockery. The flowers are of a purplish cast on 9 to 12 inch stems-----	1.50	8.00
AQUILEGIA—(Columbine) . One of the best perennials found in the border. Blooms in the early summer. Valuable for cutting and also used in rock gardens. 18 inches.		
Dobbies Imperial Hybrids . New, long spurred hybrids of a large range of colors-----	1.25	8.00
Mrs. Scott Elliott . Mixed colors, long spurred-----	1.25	8.00
Rose Queen . A very attractive shade of rose-----	1.25	7.00
ARABIS—Alpinus (Rock Cress). This rock plant blooms soon after snow leaves in the spring. The spreading nature of this plant makes a nice show of white blossoms in the awakening rock garden; 6 to 8 inches----	1.00	6.00
ARMERIA—(Sea Pink) . Used for rock garden planting, clumps of grass like foliage with small clusters of flowers on stiff wiry stems. 8 to 12 inches.		
Formosa . Light pink-----	1.00	6.00
Lauchiana . Flowers bright rosy red. 6 inches high. May and June-----	1.50	8.00
Maritima Splendens . Pink form of the above-----	1.50	8.00
ARENARIA—Caespitosa Vera (Sandwort). Mat forming plant. Very attractive when placed among flag-stones in garden walks-----	1.50	8.00
ARTEMISIA—Lactiflora (Mugwort). Finely cut foliage with fragrant creamy white flowers. 4 feet. August--	.75	5.00
Silver King (Ghost Plant). Silver foliage that is used considerably when dried-----	1.50	8.00
ASCLEPIAS —Tuberosa . (Butterfly Weed.) Is one of the most attractive native plants. Flat topped clusters of orange red flowers during July and August. 2 feet---	.75	5.00

	Per 12	Per 100
HARDY ASTER —(Michaelmas Daisies.) These plants are valuable as their blooming periods are at a time when flowers are few.		
Abendrothe. Rose, 4 feet-----	1.50	8.00
Climax. One of the best, 4 feet. Lavender-blue-----	1.50	8.00
Feltham Blue. One of the few blues-----	1.50	8.00
Mauve Cushion. Dwarf growing, soft mauve, 10 inches--	1.50	8.00
Novae-Angliae Roseum Superbum. Almost red, 4 feet--	1.50	8.00
St. Edgwin. Soft pink, 2½ feet-----	1.50	8.00
White Climax. Strong growing, White flowers-----	1.50	8.00
ASTER — Alpinus. This alpine plant blooms in May and June The flowers are of purplish blue and very showy. 8 to 10 inches-----		
	1.25	7.00
BAPTISIA — Australis (False Indigo). A plant that should be used more. Is very striking, flowers of dark blue. 2 feet -----		
	1.25	7.00
BOCCONIA — Cordata (Plume Poppy). Very large leaves of silvery green. Flowers of creamy white produced on upright panicles. Background subject growing to a height of 8 feet-----		
	1.25	7.00
BOLTONIA —(False Chamomile). Tall growing, aster-like flowers, useful for cutting.		
Asteroides. Pure white, 6 feet-----	.75	5.00
Latisquama. Lavender-pink, 5 feet-----	.75	5.00
CALAMINTHA — Alpina. A very good trailer for the rockery. Thrives well in a sunny position. Flowers of deep blue during June and throughout the summer-----		
	1.50	8.00
CAMPANULA —(Bellflower). There is not a group of flowers which possess such rare beauty.		
Media (Canterbury Bell). Blue, rose and white-----	1.25	8.00
Calycanthema (Cup and Saucer). Blue, rose and white--	1.25	8.00
Carpatica (Carpathian Hare Bell). Blue-----	1.25	8.00
Persicifolia (Peach Bells). Growing to height of 3 feet in either blue or white-----	1.25	7.00
CARNATION — Grenadin. An abundance of double and semi-double flowers all summer. Useful for cutting, either commercially or in the garden. The hardiest out-door carnations in the following colors: Pink, Red, and White -----		
	1.50	8.00
CASSIA — Marilandica (American Senna). Resembles a locust in growth, with yellow pea shaped flowers. 4 feet		
	1.25	7.00
CENTAUREA — Montana (Mountain Bluet). Fine border plant and very showy. 18 inches high-----		
	1.00	6.00
Dealbata. Lilac pink, cut leaves-----	1.00	6.00
Macrocephala. Thistle-like flower of yellow, blooms in July and August. 4 feet-----	1.00	6.00
CERASTIUM — Tomentosum (Snow in Summer). This rapid growing perennial is useful for an early blooming plant in the rockery. Flowers white. 6 inches-----		
	1.00	6.00

	Per 12	Per 100
CHIERANTHUS—Allioni (Wallflower). This is not a perennial but a biennial. But has been one of the leading plants in the rockery for color effect. The flowers are of fiery orange and grows to a height of 10 inches----	1.00	6.00
CHRYSANTHEMUMS —These late fall blooming plants are gaining more favor each season. Furnishing fine cut-flowers from October to November.		
Alice Howell. Orange yellow, large-----	1.50	8.00
Autumn Glow. Rose Crimson, large-----	1.25	7.00
Boston Bronze. Bronze, large-----	1.50	8.00
Eva. Dwarf, pink, large-----	1.25	7.00
Fields of Snow. White button-----	1.25	7.00
Indian Red. Crushed strawberry red-----	1.25	7.00
Lillian Doty. Deep pink, excellent form-----	1.25	7.00
Little Bob. Red button, showy-----	1.25	7.00
Mraie Antoinette. Pink, large -----	1.25	7.00
Skibo. Yellow button-----	1.25	7.00
Victory. Dwarf, white, large-----	1.25	7.00
CIMICIFUGA—Racemosa (Black Cohosh). A very tall-growing plant gaining more favor each season as a backbround subject. Flowers are small but in large clusters, pure white. 4 feet-----	1.25	7.00
COREOPSIS—Lanceolata (Tickseed). One of the oldest but still a favorite, good yellow daisy-like cut flower for practically all summer cutting-----	.75	5.00
DAISY—Shasta King Edw. VII (Chrysanthemum Maximum). Improved Alaska daisy, large white flowers valuable as a cut flower-----	1.00	6.00
Hartje and Elder (Mayflowering). Available for Memorial Day -----	1.00	6.00
DELPHINIUM—(Larkspur). No garden is complete if it is not there, with all the striking shades of blue. The most profitable cut flower in existence.		
Belladonna. Light blue, blooms all summer, 1 year old plants -----	.75	5.00
Two year old clumps-----	1.25	7.00
Bellamosa. Dark blue, 1 year old plants-----	.75	5.00
Two year old clumps-----	1.25	7.00
Blackmore and Langdon Hybrids. Our choice of the English strains. Flowers of the most pleasing colors and shades. 1 year-----	1.00	6.00
Two year -----	1.50	8.00
Gold Medal Hybrids. Mixed colors of the best shades of blue. 1 year old clumps-----	1.00	6.00
Two year old clumps-----	1.50	8.00
DIANTHUS—Barbatus (Sweet William). Old fashioned garden plant but still a favorite, ranging in a large collection of colors.		
Johnson's Giant. Strong growing variety, mixture of large-eyed sorts, dark colors-----	.75	5.00
Plumarius (Clove Pinks). Old fashioned garden Pinks, flowers fringed and very fragrant-----	1.00	6.00
DIANTHUS—Deltoides (Maiden Pink). Good rock garden subject, trailer, dark green foliage and rosy pink flower -----	.75	5.00

	Per 12	Per 100
DICENTRA—Eximea (Plumy Bleeding Heart). Has the most beautiful foliage of all the perennial plants, and has heart-shaped flowers on racemes that bloom all summer -----	1.50	8.00
Spectabilis (True Bleeding Heart). This is the old-fashioned Bleeding Heart. Very valuable for cutting and also forcing -----	2.00	15.00
DICTAMNUS— (Gas Plant). Glossy green leaves very suitable in the border, flowers and leaves both have a fragrance of a lemon.		
Rubra. Red flowers, 2 feet high -----	1.50	8.00
Alba. White flowers, 2 feet high -----	1.50	8.00
DIGITALIS—Gloxiniaeflora (Foxglove). A very striking perennial for the border. Blooms of a thimble-shape in separate colors of rose, purple and white in July and August -----	1.50	8.00
Shirley Hybrids. Improved <i>Gloxiniaeflora</i> in a mixture of colors -----	1.50	8.00
DORONICUM—Excelsum (Leopard's Bane). The single flowers are produced on long, stiff stems, resembling a very large yellow daisy. Blooming very early in spring. Fine for cutting. 2 feet -----	1.50	12.00
ECHINACEA—Purpurea (Purple Cone Flower). Very attractive, large daisy-like flowers with a large cone-shaped center, reddish purple flowers from July to October. 3 feet -----	1.00	6.00
ECHINOPS—Ritro (Globe Thistle). Attractive thistle with large steel blue flowers which if cut and dried will keep natural color. Grows 3 feet high -----	1.50	8.00
EULALIA— Ornamental grasses, good for a tropical effect, and large beds, for edging ponds and streams.		
Gracillima Univittata (Japan Rush). Long green leaves 4 to 5 feet high -----	1.00	6.00
Japonica Variegata. Long narrow leaves striped green and white -----	1.00	6.00
Japonica Zebrina (Zebra Grass). Named from the stripes of yellow across leaves every 2 or 3 inches -----	1.50	10.00
EUPATORIUM—Coelestinum (Mist Flower). Myriads of small azure-blue flowers. August to September. Valuable for cutting purposes. 2 feet high -----	1.00	6.00
EUPHORBIA—Corollata (Flowering Spurge). This plant grows to a height of 3 feet. During the month of August it is covered with little white flowers. Very useful as a mixture with other cut flowers -----	.75	6.00
FESTUCA—Glauca (Blue Fescue). Dwarf grass of steel blue. In tufts, growing about 4 inches high, used for borders or rockery -----	1.00	6.00
FUNKIA—Undulata Variegata (Plantain Lily). Very attractive when arranged around groups of shrubs or rose beds. Very valuable as a forcing plant for Memorial Day -----	1.50	8.00
Lanceolata. Lance shaped leaves and does well in the shade, flowers of delicate lilac, good foundation plant -----	.75	5.00
Subcordata. Grand. Alba (White Day Lily). Very attractive, large white sweet scented flowers in August -----	1.50	8.00

	Per 12	Per 100
GAILLARDIA—Grandiflora (Blanket Flower). Deserves a place in all perennial gardens. Very striking range of color; thrives well under all conditions. 1½ to 2 feet	.75	6.00

STATICE—Latifolia (Sea Lavender). Tufts or clumps of thick, leathery foliage and immense panicles of delicate blue flowers. Individual flowers very minute. Will last for months when dried-----	1.50	8.00

	Per 12	Per 100
STOKESIA—Cyanea Blue (Stokes' Aster). They are especially recommended for the front of border and may be used as a cut flower-----	1.00	6.00
THYMUS—(Thyme) . The mountain thymes are very desirable for the rock garden, having a romantic smell that is very pleasing.		
Azoricus . Rose purple, trailer-----	1.00	6.00
Citriodorus . Upright, flowers of lilac purple-----	1.00	6.00
Coccineus . Crimson, trailer-----	1.00	6.00
Albus . White flowers, trailer-----	1.00	6.00
Languinosus (Woolly Thyme). Creeping habit leaves of a gray, with a woolly appearance-----	1.00	6.00
TRITOMA—Pfitzeri (Red Hot Poker). A magnificent autumn cut flower. Flowers of orange scarlet, in August and September -----	1.50	8.00
TUNICA—Saxifraga (Tunic Flower.) This plant is a very dwarf ground cover. Creeper and resembles a fine grass, with tiny pinkish flowers all summer-----	.75	5.00
VALERIANA—Officinalis (Hardy Garden Heliotrope). When in bloom has strong, sweet Heliotrope scent. Flower spikes of white, tinted with rose-----	1.00	6.00
Coccinea . Flowers of reddish pink, very minute, in upright panicles, good for cutting-----	1.00	6.00
Alba . Same as above, white flowers-----	1.00	6.00
VERONICA—Incana . Gray silvery foliage, flowers amethyst-blue. In July and August-----	1.25	7.00
Longifolia Subsessilis (Speedwell). This is, perhaps, one of the most attractive of all blue-violet flowers for borders. July to late September. 2 feet-----	1.50	8.00
Rupestris (True Blue). Dwarf ground cover, light blue flowers, very dark green foliage. One of the choicest rockery carpets -----	1.50	8.00
VINCA—Minor (Hardy Myrtle). Trailing evergreen plant. For places grass will not grow and cemetery use-----	1.00	6.00
VIOLA—(Tufted Pansy) . Easily called the ever-blooming pansy. Blooms from early April until hard freezing. Brilliant color spots in the rockery.		
Admiration . Velvety wine purple-----	1.00	6.00
Apricot . A new, rich warm apricot color. Much in demand -----	1.25	7.00
Blue Perfection . Light blue-----	1.00	6.00
Lutea Splendens . Bright yellow-----	1.00	6.00
White Perfection . Clean white-----	1.00	6.00
Jersey Gem . Rich violet-----	1.25	7.00
VIOLA ODORATA—(Sweet Violets) .		
Prince of Wales . This sweet scented plant is very desirable as a forcing proposition, and also a good subject for any garden planting. Flowers rich purple-----	1.50	8.00
Double Russian . A double form of the above, and very hardy. Pots -----	1.50	8.00
Rosina . A new form of Viola in a pink shade, useful as a novelty in the rockery. Sweet scented as the other Violets. Pots -----	2.00	10.00
YUCCA—Filmentosa (Spanish Bayonet). The stiff, broad, sword-shaped leaves give it the name of Spanish Bayonet. The flowers are bell shaped and creamy-white. 5 feet -----	1.25	7.00
Filamentosa Variegata . A variegated form of the above. The leaves are striped with cream-----	2.00	15.00
